FRONTEND DEVELOPER

Skilled in creating web applications. Expert in problem-solving and debugging software. Proficient in coding and debugging processes and possess excellent communication and leadership skills.

WORK EXPERIENCE

Jul 2021 - Present

Project Engineer | Wipro

- Crafted visually appealing and responsive user interfaces using HTML and CSS, ensuring seamless experiences across various devices and screen sizes.
- Implemented dynamic client-side features and interactions with JavaScript, enhancing the responsiveness of web applications.
- Conducted thorough testing and optimization for responsiveness, addressing layout issues and ensuring a consistent user experience on desktops, tablets, and mobile devices.

PERSONAL PROJECTS

CookBook App | HTML, CSS, JavaScript, API Integration, Bootstrap

- Developed a recipe finder app utilizing API integration, providing users with access to a diverse range of culinary inspirations and simplifying meal planning through automated recipe retrieval and display.
- Designed and implemented a user-friendly interface, enhancing the overall user experience and receiving positive feedback from the app's growing user base, demonstrating strong UI/UX design skills and user engagement acumen.
